## REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of  
**The Ambrose Monell Foundation:**

### **Report on the financial statements**

We have audited the accompanying financial statements of The Ambrose Monell Foundation (the “Foundation”), which comprise the statement of assets and net assets arising from cash transactions as of December 31, 2013, and the related statement of cash receipts, disbursements and change in net assets for the year then ended, and the related notes to the financial statements.

### **Management’s responsibility for the financial statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor’s responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets and net assets arising from cash transactions of The Ambrose Monell Foundation as of December 31, 2013, and its cash receipts, disbursements and change in net assets for the year then ended in accordance with the cash basis of accounting described in Note 2.

### **Basis of accounting**

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

### **Supplementary Information**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule of Marketable Securities as of December 31, 2013 and 2012 and for the year ended December 31, 2013 on pages 14 to 16 is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

**THE AMBROSE MONELL FOUNDATION**  
**Notes to Financial Statements**  
**December 31, 2013**

---

**1. BUSINESS AND TAX STATUS**

The Ambrose Monell Foundation (the “Foundation”) was incorporated on February 26, 1952, under the laws of the State of New York, as a nonprofit membership corporation for voluntarily aiding and contributing to religious, charitable, scientific, literary and educational uses and purposes, in New York, elsewhere in the United States and throughout the world. The funds of the Foundation may be expended for the purposes and objectives stated.

The Foundation is a tax-exempt organization pursuant to Section 501(c)(3) of the Internal Revenue Code, and accordingly is not subject to federal income tax. However, the Foundation is classified as a private foundation and therefore is subject to an annual federal excise tax not to exceed 2% on net investment income including dividends, interest and net realized gains on securities transactions, reduced by related expenses.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The financial statements and accounts of the Foundation are prepared on the basis of cash receipts and disbursements, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (“US GAAP”); consequently, certain revenues, principally investment income, and related assets are recognized when received and expenses are recognized when paid. Under US GAAP, revenues and assets are recognized when earned and expenses and liabilities are recognized when the obligations are incurred. In addition, the Foundation reports marketable securities at cost rather than at market value. Under US GAAP, marketable securities are reported at market value.

**Cash and Cash Equivalents**

Cash and cash equivalents consist of bank checking accounts and money market funds. The Foundation considers all highly liquid financial instruments, with original maturities of three months or less from the date of purchase, to be cash equivalents.

**Concentrations of Credit Risk**

Cash and cash equivalents and investments are exposed to various risks, such as interest rate, market and credit. To minimize such risks, the Foundation has a diversified portfolio reviewed or managed by independent investment managers in a variety of asset classes. The Foundation regularly evaluates its investments including performance thereof. Due to inherent risks and potential volatility in investment valuations, the amounts reported in the accompanying financial statements can vary substantially from year to year. The Foundation maintains its cash and cash equivalents in various bank deposit accounts which, at times, may exceed federally insured limits. The Foundation’s cash accounts were placed with high credit quality financial institutions and accordingly the Foundation does not expect nonperformance.

**Financial Statement Presentation**

All assets and income are unrestricted as they are neither permanently or temporarily restricted by donor-imposed restrictions, and therefore, are available for general operations of the Foundation.

**THE AMBROSE MONELL FOUNDATION**  
**Notes to Financial Statements**  
**December 31, 2013**

---

**3. MARKETABLE SECURITIES**

Marketable securities are carried at cost in the accompanying financial statements. The cost basis of securities received from Mrs. Maude Monell Vetlesen on March 3, 1952, from the Estate of Mrs. Vetlesen on December 16, 1958, October 28, 1959, November 28, 1973, February 4, 1977, and February 22, 1978, and from trusts established for the benefit of Barbara Monell Ory on February 22, 1986, and Margaret M. O'Donnell on January 21, 1988, was determined based upon the related market values as of the dates received. The cost of securities sold is determined on the first-in, first-out-cost basis.

The market values of marketable securities are based on published closing prices on December 31, 2013. Changes in market values of the marketable securities will affect future grants. At December 31, 2013, concentrations in marketable securities (5% or more of total market value of marketable securities) included the following common stock investments at quoted market values:

|  |                       |
|--|-----------------------|
| International Flavors & Fragrances, Inc. | \$ 49,699,363         |
| Murphy Oil Corp                          | 43,343,668            |
| Exxon Mobil Corp                         | <u>26,657,902</u>     |
|  | <u>\$ 119,700,933</u> |

Since the financial statements of the Foundation are prepared on the basis of cash receipts and disbursements and therefore marketable securities recorded at cost rather than at fair market value, the Foundation has not applied the guidance relating to "Fair Value Measurements," to its financial statements, however, this guidance is still relevant for disclosure purposes. This guidance establishes a framework for measuring fair value, expands disclosures about fair value measurements and provides a consistent definition of fair value, which focuses on an exit price between market participants in an orderly transaction. The guidance also prioritizes, within the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the transparency of information used in the valuation of an asset or liability as of the measurement date. Assets and liabilities measured and reported at fair value are classified and disclosed in one of the following categories:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. The type of investments in Level 1 include listed equities held in the name of the Foundation, and exclude listed equities and other securities held indirectly through commingled funds.
- Level 2 - Pricing inputs, including broker quotes, are generally those other than exchange quoted prices in active markets, which are either directly or indirectly observable as of the measurement date, and fair value is determined through the use of models or other valuation methodologies. Also included in Level 2 are investments using a net asset value ("NAV") per share, or its equivalent, that may be redeemed at NAV at the statement of financial position date or in the near term, which the Foundation has determined to be within ninety days.

# THE AMBROSE MONELL FOUNDATION

## Notes to Financial Statements

December 31, 2013

---

Level 3 - Pricing inputs are unobservable for the assets or liabilities and include situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value require significant management judgment or estimation. Investments that are included in this category generally include privately held investments and partnership interests. Also included in Level 3 are investments measured using a NAV per share, or its equivalent, that can never be redeemed at NAV at the statement of financial position date or in the near term or for which redemption at NAV is uncertain due to lock-up periods or other investment restrictions.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Foundation. The Foundation considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Foundation's perceived risk of that instrument. As of December 31, 2013, all of the Foundation's investments were Level 1.

#### 4. GRANTS

Grants paid in 2013 were as follows:

| <b>Organization</b>  | <b>Purpose</b>   | <b>Amount</b> |
|--|--|---------------|
| Alvin Ailey American Dance Theater                           | General purposes   | \$ 25,000     |
